~ magic vs technology ~

You are using technology…
when i am using magic…

You know, if i am at home...
You know, if with somebody or alone...
You know, if my party is over...
Also you can look at me, when i take a shower...

Cause...

You are using technology... technology...
when i am using magic... magic...

You know, when i am going online...
So you know, when i make it fine...
You know, if my friends are with me...
And usually you know, how i used to be...

Cause...

You are using technology... hightechnology...
when i am using magic... simple magic...

But you should listen now, what i say...
I show you my style to say you to stay...

I know, if you are happy or sad...
I know, if you get about me mad...
I know, how much your love i feel...
Only i know, how your heart to save and heal...

Cause...

You are using technology... you loves technology...
but i am using magic... loving you with magic...
